A Whole Family Can Be Fitted Out

In Warm, Stylish, Serviceable Clothes for very Little Money.

THE Clothes are just as good now as they were two months ago, and half the winter is yet to come. The prices we put on these goods early in the season were low enough in all reason. Our ordinary profits are small; our regular way of selling is as fair as any buyer could ask; but after the first of the year we face the problem of selling all goods left or carrying them over to another winter. We haven't room to store them. We lose if we keep them, and we must lose if we sell them.

We are Ready to Take Our Loss Now If We Can Turn this Stock into Dollars.

The money tied up in this merchandise will pay in advance for Spring purchases and entitle us to special cash discounts.

It requires courage to mark Fine New Suits and Overcoats at less than they cost to make. But it takes heroic measures to move goods at this season. We must make prices that will interest the light purse and the shrewd, close-fingering buyer. We reckon folks will come for goods if the price is low enough.

Our Mid-Winter mark-down Sale is the Shrewd Buyers Opportunity.

COLD WAVE

Covered Florida Yesterday, Doing Serious Damage to Vegetables.

Extent of Loss to Orange Trees Will Not be Known in Several Days.

Florida experienced the coldest weather yesterday in several years, and no part of the state, except it be south of the 25th parallel, is exempt. In Palatka the mercury touched the freezing point at 4 p. m. on Wednesday, going down slowly but steadily all night, and reached its lowest point of 16° above zero just before sun up Thursday.

All through Thursday the mercury remained below the freezing point, and the indications pointed to a colder night than the preceding one. The lettuce and celery beds in this section are probably ruined, though some growers are hopeful that this is not true.

What oranges remained on the trees are frozen as hard as cannon balls. Oranges brought here on Thursday morning from San Mateo, when cut open, were filled with ice. On several of the groves on the east side of the river, there will be a loss of several hundred boxes of fruit.

It is the general opinion that the orange trees are but slightly injured, if at all. But it will take several days to determine the extent of damage.

The telephone lines to Crescent City were down all day yesterday and the extent of damage on the peninsula could not be learned. But it is probable that the fruit in all parts of the Fruitland peninsula is ruined.

INTERLACHEN ITEMS.

Messrs. Udo and Carl Fleischman and Miss Helen Fleischman, Mr. and Mrs. Chas. Leach, of New York City, and Mr. J. Gamble of Tallahassee are occupants of the Erskine Villa. The party are relatives of Mr. Hugo Friedlander who has had a winter home here many years.

Mr. and Mrs. Evan Brown of Boston, Mass., have opened their beautiful home for the season.

Miss Rose Laskowitz of New York City is here hoping to regain her health.

Fire destroyed the house occupied by Levi Carroll. The family were absent and the origin of fire is unknown.

Mrs. Merritt Corbell paid a short visit to Palatka this week.

There is rumor of a big turpentine industry being located here, also the pay station, and commissary. As several well known men of Georgia and elsewhere are locating here with their families, the rumor looks reasonable.

More real estate has changed hands this winter than in several years.

An Open Letter.

Publishers Palatka News, Palatka, Florida.

Gentlemen:—

Will you kindly state to the citizens of Putnam County that I am closing out my Jacksonville, Fla., business and will from February 1st be in Palatka, and will greatly enlarge my stocks, putting in a full line of Dry Goods, Gents Furnishing Goods, Shoes, Ladies, Misses and Childrens Hats, Glassware, Etc., Etc.

I will be in better shape to do business than ever before and intend to give my customers Rebate Checks of 5 per cent of all Purchases. I will have a Premium Counter on which will be all the nicest varieties of Glassware and Household Articles.

During the month of February I want to close out all Winter Goods to make room for my nice, up-to-date line of Spring and Summer Fabrics.

My prices will be low and they all get the Rebate Checks besides.

Thanking the public for past favors and soliciting future orders,

I am as ever,

J. T. Bond.

The New Colony.

Palatka people should give all assistance to the efforts of the Southern Colonization company to establish its colony along the G. S. & F. Railway in this county, and we call attention, specially, to the advertisement of the company in another column of this paper.

The company owns 20,000 acres of land, the great majority of which is without doubt among the best farming land in the entire state—land that will produce great and varied crops. The "story" of three crops in one year is no "fairy tale," but a fact which is well known here. The location is also healthy and furnishes an abundance of pure water.

A member of the colony who recently made an investigation of the location writes the following letter to the local manager:

JACKSONVILLE, FLA., Jan. 4, 1905.
SOUTHERN COLONIZATION CO., Palatka, Fla.
Dear Sir:—I have just returned from a trip to your colony lands, and while there I made a drive of several miles, and on both sides of the Georgia Southern & Florida Railway which gave me a good view of a large portion of tract containing the 20,000 acres of which I call good land. From the looks of it I think it is as fine a section of land as can be found in the state for the purpose of raising all kinds of staple crops of Florida. I saw as fine sweet potatoes taken out of the ground the day I was there as could be grown anywhere, and of large size and yield. I also saw as fine peach, plum and pear trees for their age as I ever saw anywhere. I could learn from farmers and vegetable growers that live there that they have as good health, if not better, than any place in the state, some of whom have been there, or nearby, for twenty years. I think the location and the soil will make a good place for a colony as could be found in the state, and I have seen a good deal of Florida, having lived here and in Georgia for many short twenty years. I am a member of the colony, and am well pleased with the location.
C. F. BRITTS.

A Pleasant Party.

The launch Arrow carried a picnic party of Palatkans to Crescent City on Thursday of last week, returning the same day. In the party were Mr. and Mrs. T. H. Merrill and daughters, Genevieve and Mary, Mr. and Mrs. H. W. Kilpatrick, Mrs. Dr. Cyrus and Mrs. Hazellon, Mrs. H. I. Miner and sister and Master Paul Selden, Lucy Gardner and Mr. George Merrill. The party carried lunch which was eaten in V. L. A. Hall, after which visits were paid to Hubbard Park and the celebrated J. W. Miller orange grove. The members of the party desire to express their appreciation of and thanks to the people of Crescent City for courtesies extended.

DO NOT SUPPRESS A COUGH.

When you have a cough do not try to suppress it, but remove the cause. The cough is only a symptom of some disease, and the disease is what you should cure, then the cough will stop of itself. The most common cause of coughing is a cold. Anodynes will promptly suppress the cough, and preparations containing chloroform, opium, etc., are used for that purpose, but they do not cure the cold. Chamberlain's Cough Remedy on the other hand does not suppress the cough, but relieves it by removing from the throat and lungs the mucus which obstructs the breathing and allaying the irritation and tickling in the throat. It also opens the secretions and effectually and permanently cures the cold as well as the cough. For sale by Ackerman & Stewart.

Rev. F. H. Richey will preach and administer holy communion at St. Matthews Episcopal church, San Mateo, next Sunday at 2 p. m.
